## A Message of Greeting

It is a great pleasure for me to warmly welcome contestants and spectators to Bavaria for the 2007 World Rowing Championships.

The regatta course in Oberschleißheim was created for the 1972 Olympic Games and since then it has proven its worth in many major sporting events. The Munich Olympic Regatta Association can look back over a rich fund of experience in organising international events. I am therefore quite sure that the athletes competing in the various contests will find optimal conditions and the World Championships will also be given a worthy and fitting framework.

This will be supported not at least by the mood of the people in a state, where traditions and the proverbial sense of homeliness are valued as highly as an open approach to all things new and enthusiasm for top performances. The cheerful atmosphere prevailing in the capital of Munich with its cultural sights and tourist attractions is enjoyed by many visitors from all corners of the globe.

Bavaria looks forward to acting as host of the world elite in rowing and of having the chance to experience some exciting competitions. I wish the participating teams an enjoyable stay and I hope that the sportsmen and women will be able to fully optimise the skills acquired with such dedication during their training.

**Dr. Edmund Stoiber** | Bavarian Minister-President

## Greeting

Ever since the 1972 Olympic Games, Munich has been one of the best and most famous international regatta courses worldwide. Since the introduction of the FISA Rowing World Cup, each year the Munich Olympic Regatta Association has held one of the three top-class international world cup regattas. This long-year continuity is clear proof of the organiser's competence and the international significance of this regatta venue with its impressive infrastructure. By granting the World Rowing Championships from 26 August to 2 September 2007 to the German Rowing Federation at the Olympic Regatta Course in Munich, the delegates of the International Federation of Rowing Associations – the FISA – has once again placed its trust in the Olympic Regatta Association in Munich.

Every world championship is in and of itself a high point during the season. However, there are two more factors adding to the 2007 World Rowing Championships: more than 2/3 of all participants will qualify here for the Olympic Games in Beijing and for the first time Munich is also the qualifying regatta for handicapped rowers preparing for the Paralympics 2008 in Beijing.

The top international athletes, their trainers, supporters and clubs rightfully expect first-class organisation. Organising Committee President Bernd Schuhmacher and his team have taken on this challenge and they will do everything to offer optimum conditions to all participants. They strive to set a new benchmark by gaining the participation of 70 nations.

Following the World Championships 1981 in Munich, 1983 in Duisburg and 1998 in Cologne, the German Rowing Federation and now the Munich Olympic Regatta Association will be excellent hosts for these FISA World Championship once again in Germany. We look forward to top teams from the FISA family's clubs, enthusiastic spectators, exciting and fair matches, a far-reaching media presence for our sport – in short, to an excellent world championship on the Olympic Regatta Course in Munich!

**No one should miss this rowing festival.**

**Helmut Griep** | President of the German Rowing Federation
